Entrepreneurs see an opportunity

Humble Beginnings to Great Institutions – Built by Entrepreneurial Spirit

In 1992, D.K. Goel, a young B.Tech Graduate from the IIT Delhi set out to change the 'Informal Education' by making students learn 'The Art' behind 'The Science of Success' and run education with world class quality practices emulating Reputed Global Industries. Thus, FIITJEE was born. He led from the front and FIITJEE helped average & below average students became not just successful but also top rankers in IIT-JEE (JEE Advanced).

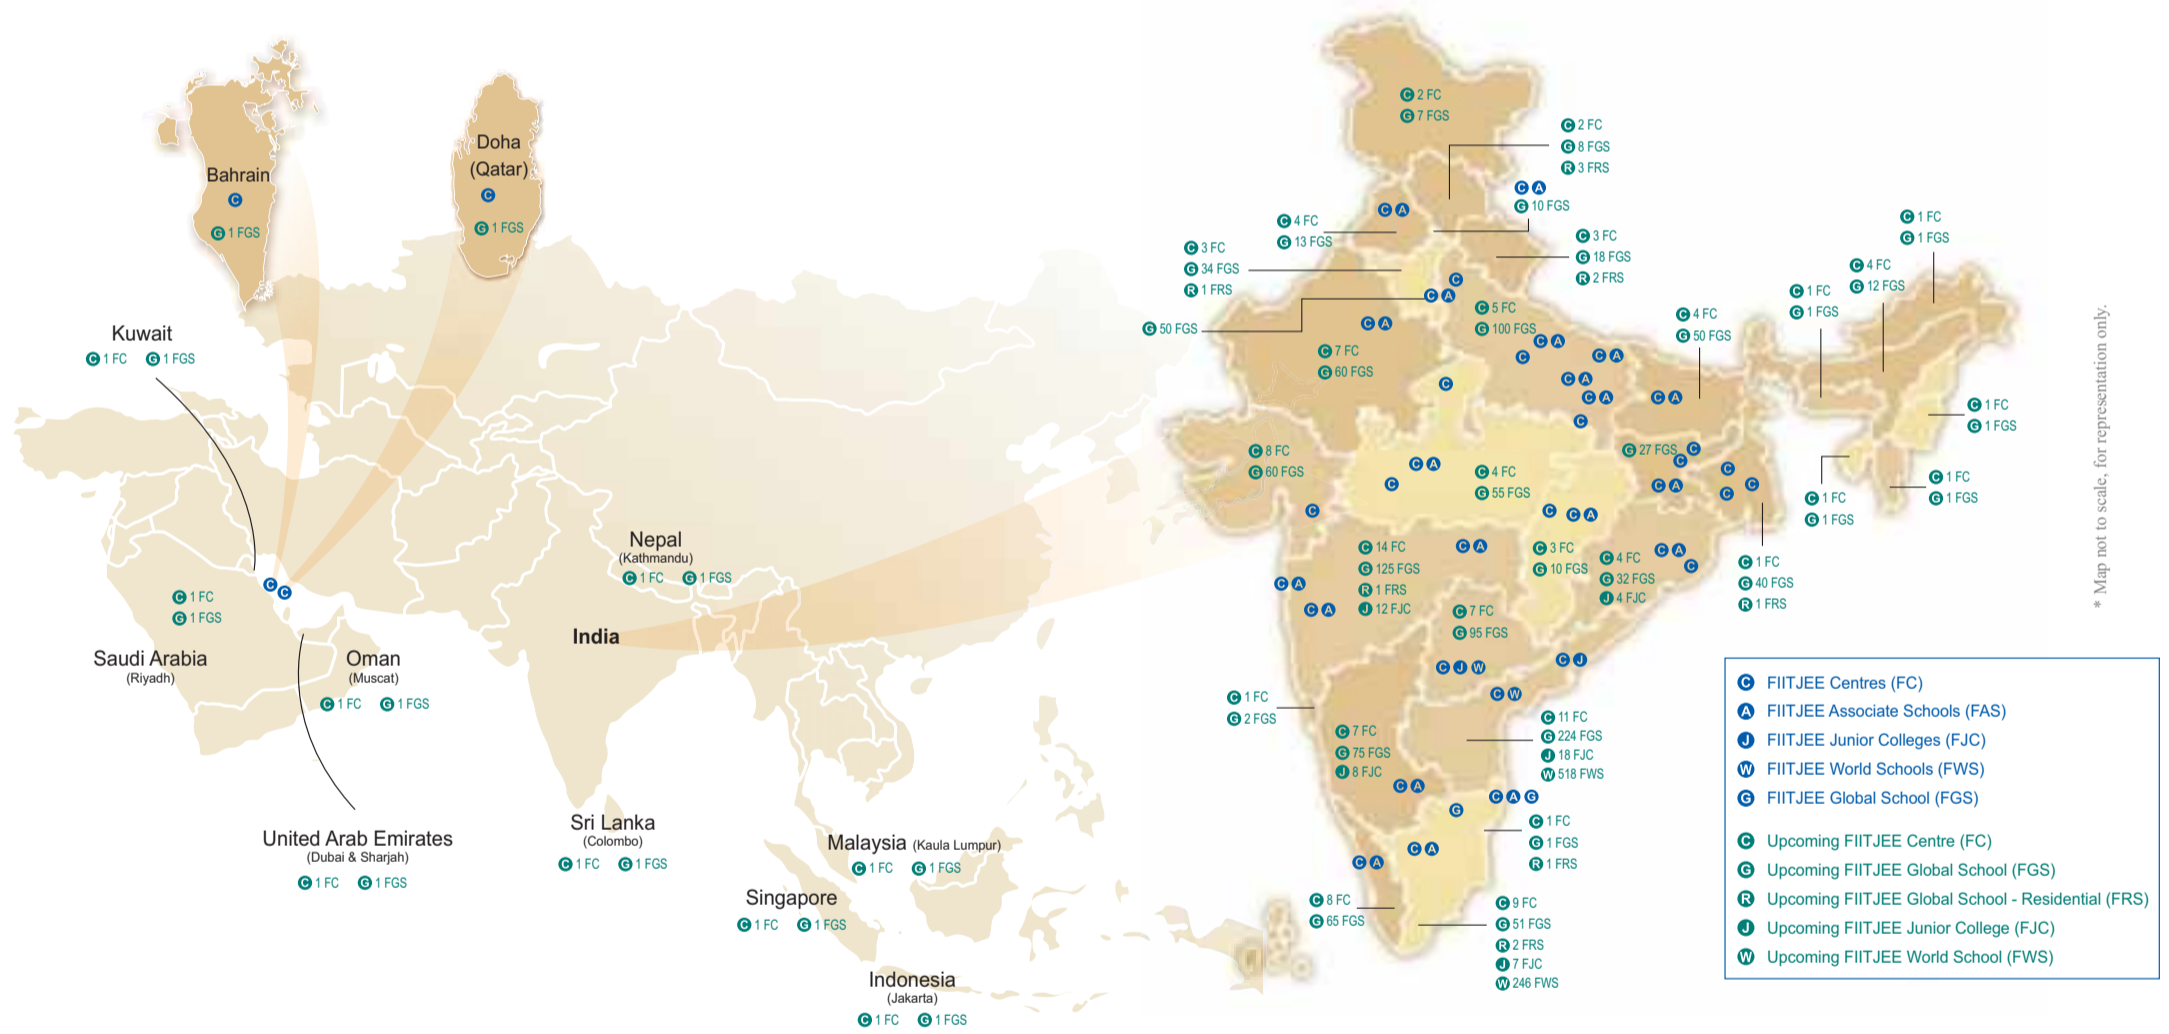

To provide stress free education to children,

he created Integrated School Programs. He became 'The Torch Bearer' for transforming the Education Landscape through series of strategic innovations and created standards of excellence in every area of operation.

FIITJEE, having started with less than ten thousand rupees in 1992, became a leader in IIT-JEE (JEE Advanced) training in just 5 years by producing not just All India Topper from its Long Term Classroom Program but also producing Highest Selections in

the country in 1997. With the continued thrust on student services, soon students & parents started recognising FIITJEE as "The Most Powerful Brand in Serious Education" and hitherto unorganised sector got a direction to change into an organised industry.

We are poised to make our services accessible to wider section of students in India & Abroad through Ethical Entrepreneurial Franchise Partners. Today, the FIITJEE Universe is set to be 'The Change Maker' in all vistas of Education.
